LIGHTING

PAOLA PALANTIR 3 LIGHT CLUSTER

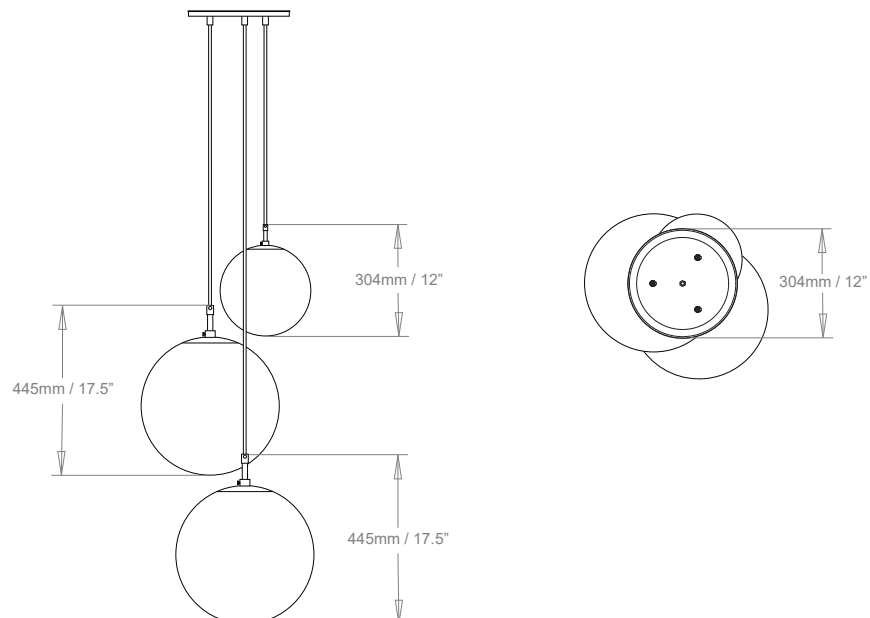

Using the Paola shades, our Palantir multi pendant ceiling light is made to order and can be adapted to the customer's specification. Popular for use in hallways and stairwells, the flexes for each shade can be set at whatever length the location demands and the colours can be mixed or a single colour can be selected. Shade sizes can also be varied. The only limitation to the number of globes is the size of the ceiling plate. Here it is shown with two large Paola globes and one medium.
